

BRIVO CABINET SYSTEMS

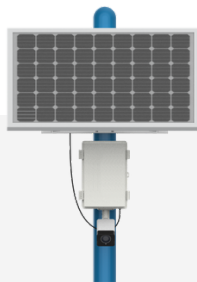

Remote surveillance enclosures for every need — no power or internet required.

Now you can put a surveillance camera anywhere and access it in the Eagle Eye Cloud VMS from anywhere in the world. Harness the power of AI to search footage quickly, receive real-time alerts, read license plates, and more, all in our securely encrypted technology platform.

No matter where you need a camera, there's a solution for you.

Cabinet Systems are available and warrantied as Eagle Eye Complete subscriptions or as a direct hardware purchase.

Brivo Anywhere Cabinets

Put a camera anywhere — no power or internet required.

- No Bridge/CMVR needed
- Solar panel, battery, cellular modem included

GREAT FOR: Farms, lots, construction sites, warehouses, roads, recreational facilities, remote areas, public spaces

Brivo Direct Cabinets

Keep up to 2 cameras online – no internet connection needed.

- No Bridge/CMVR needed
- Wired power connection

GREAT FOR: Construction sites, driveways, warehouses, outdoor spaces, and perimeter areas with power, wired streetlights

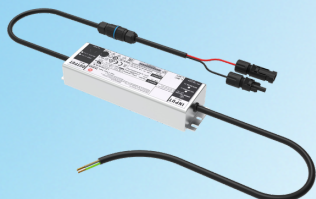

Brivo Bridge Cabinets

Install up to 7 outdoor cameras and add AI analytics, and LPR.

- 324+ or 524+ CMVR included
- Wired power connection

GREAT FOR: Subdivisions, gated communities, gated parking garages, wherever LPR is needed

Note: For locations where battery-backed continuous operation is a requirement, but mains power is also available via utility pole or other source, the Eagle Eye Anywhere External Power Supply allows deployment without solar panels.

All our cabinet options include weather-resistant enclosures and a cellular modem to ensure they're always accessible through the Eagle Eye Cloud VMS.

Location flexibility:

Connect cameras to the Cloud VMS in any location without a network connection.

Weather resistance:

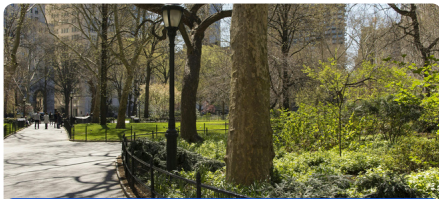

Protect your system in a rugged enclosure to survive a wide range of environmental conditions.

Reduced installation costs:

Eliminates the need for trenching and wiring, which can save thousands of dollars.
